Nairobi, Kenya

Dear Hiring Manager,

I am excited to apply for the position of Software Engineer Intern at Safaricom Limited Company Kenya. As a graduate of Bachelor of Science in Computer Science from the University of Kabianga, I bring a strong foundation in software development, system design, and problem-solving. My experience working on various projects has equipped me with practical insights into frontend and backend development, mobile application development, and database management.

In my journey as a software developer, I have honed my skills in JavaScript, Bootstrap, React.js, Django, React Native, and Flutter, enabling me to develop scalable and efficient software solutions. My hands-on experience includes creating and maintaining management systems such as College Management System, Stock Management System, and Invoice Management System during my time at Ejum Solutions as an attachee. Additionally, I have been proactive in expanding my technical expertise by learning React Native and Flutter for further strengthening my Android development capabilities.

Beyond technical proficiency, I possess strong problem-solving abilities, a keen attention to detail, and the ability to work both independently and collaboratively. My work ethic is driven by a passion for innovation and a commitment to delivering high-quality software solutions. I am particularly drawn to Safaricom Limited Company due to its mission of leveraging technology to enhance digital inclusion and streamline supply chain processes.

Joining your dynamic engineering team presents an exciting opportunity to contribute my skills while learning from industry experts. I am eager to apply my knowledge, collaborate on impactful projects, and grow as a software engineer in a challenging and rewarding environment.

I would welcome the opportunity to discuss how my background and skills align with the goals of Safaricom Limited Company. I am available for an interview at your convenience and can be reached at +254 705 454027 or hansfidel6@gmail.com.

Thank you for your time and consideration. I look forward to the possibility of contributing to your team.

Yours Sincerely
Hansel Fidel Ndemange
